About Me

Myself Manoj Kumar and I am from Jharkhand (Giridih, Bagodar). Currently I am pursuing my Bachelors in technology from National Institute of technology Arunachal Pradesh and my Specialization in Computer Science and Engineering.

I have deep interest in full stack developer and I have completed 3 major project using HTML, CSS, JavaScript and React likes ecommerce, portfolio and restaurant menu list.

Projects

E-Commerce Website

July 2023 – AUG 3

- It is only frontend part of ecommerce and having different categories like latest product and feature of product and so many other, having list integrated with button and click the button goes to accordingly and also have footer section.
- Used tools and technologies are HTML and CSS. And it is a sole project and it's had fully responsive webpage.
- **Link:** [click here](#)

Portfolio

Fab 2024 – Mar 2023

- It is only frontend part having different categories likes education, contact section, feedback or message section and about and each and all categories are integrated with list by the help of anchor tag. And also having download button for CV and having social media section which are fully integrated with links.
- Used tools and technologies are HTML, CSS and JavaScript. And it's had fully responsive webpage.
- **Link:** [click here](#)

Restaurant Menu

Fab 2024 – Mar 2024

- It is frontend part having different categories like lunch, dinner and breakfast all these are done using component and user define API.
- Used tools and technologies are react and it is fully responsive webpage.
